

Cheer Up! Lyrics

A Great Big World

Chorus 1:

Cheer up!

'Cause nothing really matters when you look up into outer space.
It's a great big world and there's no need to cry.

Verse 1:

Cheer up!

We're all interconnected to the reaches of the galaxy.
And my best friend says he came from the sky.

Verse 2:

He travelled to The Earth aboard a pink spaceship,
It's hard for him to hide behind those eyes.

Verse 3:

Cheer up!

The atoms in your body are as old as every dinosaur.
You're a special part of one big grand design.

Chorus 2:

Cheer up!

We're all in this together to discover what we're living for.
13 billion years and there's still time.

Coda:

Every night I wish upon a star so bright,
Waiting for the others to arrive.

Chorus 3:

Cheer up!

'Cause nothing really matters when you look up into outer space.

It's a great big world and there's no need to cry.
13 billion years and there's still time.
