

## Everyone Is Gay Lyrics A Great Big World

---

*Verse 1:*

If you're gay then you're gay  
Don't pretend that you're straight  
You could be who you are any day of the week  
You are unlike the others  
So strong and unique  
We're all with you

*Verse 2:*

If you're straight well that's great  
You can help procreate  
And make gay little babies  
For the whole human race  
Make a world we can live in  
Where the one who you love's not an issue

*Chorus:*

'Cause we're all somewhere in the middle  
We're all just looking for love to change the world  
What if the world stops spinning tomorrow?  
We can't keep running away from who we are

*Verse 3:*

If you're gay then you're gay  
If you're straight well that's great  
If you fall in between that's the best way to be  
You've got so many options  
Every fish in the sea wants to kiss you

*Chorus:*

'Cause we're all somewhere in the middle  
We're all just looking for love to change the world  
What if the world stops spinning tomorrow?  
We can't keep running away from who we are  
And we're all here in it together  
We're one step closer to breaking down the walls  
Everyone is gay  
Hooray!  
Hooray!
