

Over it Lyrics

The Crystal Method, Dia Frampton

Verse 1:

Oh my
Oh my
Oh my

I got a lot on my mind
I want to tell you I'm wrong
I want to tell you that I fucked up
I'm gonna tell you the truth

Verse 2:

A fist to purple your eyes
It's going to hurt for a time
But if you let me I'll give you a ride
Oh my
Oh my

Pre-Chorus:

It's my fault that you
It's my fault that that you
It's my fault that you
It's my fault that that you

Chorus:

It's my fault that you're walking away
I told you ten times I'm gonna change
I don't blame you thinking, I'm full of it
If you let me honey, I will become
Your safety, shade tree, favourite song
I don't need this crazy, 'cause I'm over it
Yeah, 'cause I'm over it

Verse 3:

And I thought that it would change
But you gave me a reason to stay away
We stay the same, and I think about the fall
You gave me a reason to want it all
We never win

Chorus:

It's my fault that you're walking away
I told you ten times I'm gonna change
And I don't blame you thinking, I'm full of it
If you let me honey, I will become
Your safety, shade tree, favourite song
I don't need this crazy, 'cause I'm over it
Yeah, 'cause I'm over it

Verse 4:

'Cause I'm over it
